From a Successful ADA Winter School to the Upcoming Hybrid Spring School 2023!

Dear Delegate,

July 2023 was a period of high activity for the **African Doctoral Academy (ADA)** as we hosted over **200 participants**, some of them scholarship recipients, for the **2023 Hybrid Winter School**. The courses were offered online and in-person at the Stellenbosch University campus and the Stellenbosch Institute for Advanced Study (STIAS).

Delegates hailed from Botswana, Kenya, Namibia, Nigeria, Uganda, South Africa, Tanzania, and Zimbabwe among other countries. As part of the three-week long Winter School, the ADA offered **15 high quality competency-based courses** aimed at enhancing scholarship for doctoral candidates, emerging scholars and early career academics. These courses were presented by leading international and local scholars who are experts in their fields of research. The active involvement of the presenters and the strong enthusiasm of the delegates played a vital part in making the Winter School a great success!

The ADA also hosted [networking events](#) providing delegates with the opportunity to interact and form strategic networks and partnerships. We would like to thank all our presenters, guest speakers and delegates who joined us for the ADA 2023 Hybrid Winter School!

To continue furthering these efforts, the ADA is excited to announce that it will be hosting a short-form **Hybrid Spring School**. [More information can be found below.](#)

ADA 2023 Hybrid Spring School!

APPLY NOW

We are excited to announce the ADA's upcoming short-form **Hybrid Spring School 2023** which is scheduled to take place from **4 to 8 September 2023** and **2 to 4 October 2023**.

at the Stellenbosch University campus and online.

Why join us?

The **Spring School** promises a selection of courses that offer high impact research training, as well as options in academic preparedness and career development.

We will be offering courses in **grant writing, effective academic writing, the productive doctorate and how to build a constructive relationship with your supervisor right from the beginning**. Each course is designed by our established presenters to equip participants with skills on how to effectively approach, tackle, and convey complex research concepts in an engaging and relatable manner. **Applications are open!**

To apply please visit our website [here](#).

We hope to welcome you to the ADA soon. If you have any queries about the ADA, please feel free to email us!

Warm regards,
The ADA Team

The African Doctoral Academy is situated within the Africa Centre for Scholarship at Stellenbosch University.
